

ALFA VISUAL STATION (ALVIS)

**“SEND YOUR MESSAGE TO THE RIGHT CUSTOMER
 AT THE RIGHT TIME IN THE RIGHT PLACE”**

APPLICATIONS:
 BANKS.
 COMMERCIAL MALLS.
 RESTAURANTS.

**HOSPITALS.
 TRAINING CENTERS.
 PUBLIC SERVICE LOCATIONS.**

ALFA VISUAL STATION (ALVIS)

Alfa Visual Station is the most convenient way for displaying information to clients in banks, training centers, malls, etc.

Alfa Visual Station is a PC based system where information can be customized upon clients' requests. It is easy to install and elegant in style. It can be connected to a LAN for remote content modifications.

ALVIS FEATURES

- Centralized Visual Content creator and management with time scheduling.
- Network Management with user specified download/upload time.
- Combine Video/Audio, Tables/Boards and Moving Message into one screen.
- Connect to queuing system and display Client/Window information.
- Intellectual interface for great simplicity and ease of use.
- Add and organize media files for broadcasting through the information channel. The editor includes add-remove option as well as setting the number of playback iterations and viewing schedules.
- Control the general settings for the viewer including the background and company logo. It acts as a network controller and will allow the user to set the resources displayed on each plasma separately.
- Organize moving message contents and provides means to edit both the content and the content layout.
- Displays up to 2 boards each with a different set of columns, rows and a separate header. Displayed items can be categorized in order to display similar items together. Could automatically fetch data from predefined path.
- Customize the size and the location of the display area holding the queuing system data and set the number of entries to be displayed.

BENIFITS

- Information Channel for display of all activities in sequentially timed manner.
- Display of real time parameters (option).
- Rates display (Currency, Meals, Packages...).
- Connection and Display of Queuing system data.
- Moving message display (moving bar) for immediate delivery.
- Money maker by advertising to third party.
